

St George's Ultrasound Guided Vascular Access Workshop

Friday 26th October 2018

Venue St George's Hospital / St George's University of London, Simulation Centre, 4th floor Hunter wing, Cranmer Terrace, London, SW17 0RE, UK

This workshop is ideal for all doctors requiring ultrasound skills for vascular access. It is a well-established course at St George's that provides you with a refresher of background knowledge and gives you lots of hands-on training opportunities. The focus is on central venous access, but peripheral venous access, PICC lines and arterial lines will all be discussed.

The course is free for all South London anaesthetic trainees. Please contact Andrea Lopes Cavalcanti for bookings. Applied for 3.5 external CPD points from the Royal College of Anaesthetists.

Course Programme

12:30	Registration
12:55	Welcome and introduction Dr Jens Bolten, Consultant Anaesthetist, St George's Hospital
13:00	Ultrasound guided vascular access – What is best practice? 1105 Dr Jens Bolten, Consultant Anaesthetist, St George's Hospital
13:20	Ultrasound physics and its practical application for vascular access 1A03 Dr Jens Bolten, Consultant Anaesthetist, St George's Hospital
13:40	Vascular access - anatomy, variations and correct positioning 1A01 Dr Mark Edsell, Consultant Anaesthetist, St George's Hospital
14:00	Coffee
14:15	Ultrasound for central line insertion: How to do it? 1A03, 2A04 Dr Ravi Baikady, Consultant Anaesthetist, Royal Marsden Hospital
14:45	Hands-on sessions 1A03, 2A04 Needling practice on manikins Scanning on volunteers – real life anatomy Tips and tricks for ultrasound guided peripheral venous access and arterial lines
16:45	Feedback and close

Faculty

Dr Ravi Baikady, Consultant Anaesthetist, Royal Marsden Hospital

Dr Jens Bolten, Consultant Anaesthetist, St George's Hospital, London (course lead)

Dr Mark Edsell, Consultant Anaesthetist, St George's Hospital, London
