

Information about Your Referral Following a Vacuum Assisted Excision Procedure

This leaflet explains more about what will happen after having a Vacuum Assisted Excision procedure.

Thank you for attending the breast assessment clinic. As discussed with you we will now arrange a follow up Vacuum Assisted Excision (VACE) Procedure to take further tissue from this area.

Why was I recalled to assessment?

You were recalled to the assessment clinic because of some concern about an area of tissue in the of your left / right breast.

You had:

- | | | | |
|----------------------------|--------------------------|--------------------|--------------------------|
| Breast x-rays (mammograms) | <input type="checkbox"/> | Breast examination | <input type="checkbox"/> |
| Ultrasound scan | <input type="checkbox"/> | Needle biopsy | <input type="checkbox"/> |

The biopsy showed:

.....

.....

.....

.....

We will inform your GP practice of this result.

When will I have my VACE?

Your VACE will be arranged within two to three weeks depending on bruising.

When will I receive the results of my VACE?

The results appointment will be within two weeks of the VACE

Who will give me the results of my VACE?

We will also refer you to see a specialist breast surgeon at St George's University Hospital to get the results of this VACE. You do not need to see your GP for this referral to take place.

Who will refer me to the Breast Surgeon?

The doctor/specialist practitioner you met to today will refer you to the breast surgeon, their name is:

.....

The doctor/specialist practitioner who you met at the assessment clinic was:

.....

Who will my breast surgical team be?

Consultant Breast Surgeons:

Miss S Tang Wednesday morning clinic

Ms. N. Betambeau Thursday morning clinic

Breast Care Nurses:

Tracy Hall Tel 020 8725 4745

Alison Ghent

Leah Marinovich

What can I expect at my first surgical appointment?

This appointment is usually held on a Wednesday or Thursday morning. You may be in the clinic for up to three hours. Your X-rays, scans and biopsy results will have been discussed in a multidisciplinary team meeting prior to your appointment, in order to discuss the most appropriate plan for you.

The VACE result will be discussed with you at your appointment. If further surgery is required this will also be discussed with you.

Often further surgery is not necessary but a yearly screening mammogram may be recommended for a period of five years. This will be arranged for you.

Can I bring a friend or relative?

Please feel free to bring a friend or relative with you if you wish.

Are there any alternatives?

If further surgery is recommended you may prefer to have this carried out at a breast unit in a hospital closer to your home, this can be arranged for you.

Contact us

If you have any questions or concerns before your appointment, please contact the breast care nurses by telephoning **020 8725 2726**.
