

Mixed Consistencies

This leaflet provides further information around mixed consistencies. It is designed to help support those with a swallowing difficulty who find it difficult to manage solids and thin liquids at the same time.

If you have any questions or concerns, please speak to the speech and language therapist, GP or nurse caring for you.

	ADVISED	AVOID
Hot Main Dishes	All foods. Any sauces/gravies to be soaked into the food – no fluid residue on the plate.	
Sauces, gravies	Small amounts served and mixed/absorbed into main dish. Sauces to be thickened to a similar consistency to your drinks if you are recommended thickened fluids.	
Starchy vegetables/pasta/rice	ALL	
Vegetables	ALL	
Sandwiches	As advised by your speech and language therapist	
Soups	Fully blended soups – no bits. Soups to be as thick as your drinks if you are recommended thickened fluids.	Soups with lumps e.g. minestrone, pea and ham.
Salads, dressing	As advised by your speech and language therapist.	
Breads, Cereal	All bread Breakfast cereals softened with milk before service (e.g. Weetabix™), rolled oats, semolina.	Dry breakfast cereals served with separate milk e.g. granola.
Spreads	ALL	

Fruit	Fresh fruit and dried fruit.	Fruits that produce a juice when you bite into it e.g. grapes, oranges. Canned fruit.
Yoghurt	All smooth yoghurts without pieces.	Yoghurt with large fruit pieces or muesli.
Desserts	ALL	
Milk and cheese	ALL	
Beverages	ALL	
Biscuits	ALL	
Miscellaneous	Salt, pepper, sugar, sweetener, cream, nuts.	

Strategies

1. Draining liquid from the spoon during meals.
2. Use of a fork to eat mixed textures allows the fluid to be drained.
3. Thickening broth or milk.
4. Pureeing mixed consistencies.
5. Let cereal absorb milk until there is little liquid left. Drain before eating.
