

What to do if you miss a dose of Fingolimod (Gilenya®)

The leaflet aims to answer your questions about taking fingolimod (Gilenya®) to treat your multiple sclerosis (MS). If you have any questions or concerns, please speak to a doctor or nurse caring for you.

If you miss a dose within the first two weeks of taking fingolimod (Gilenya®)

Please contact the multiple sclerosis (MS) team if you forget to take **a dose**. The MS doctor may decide to keep you under observation (heart monitoring) at the time you take the next dose.

If you miss a dose in weeks three or four of taking fingolimod (Gilenya®)

Please contact the MS team if you forget to take your treatment for **more than seven days**. The MS doctor may decide to keep you under observation (heart monitoring) at the time you take the next dose.

If you miss a dose after the first month of taking fingolimod (Gilenya®)

Please contact the MS team if you forget to take your treatment for **more than two weeks**. The MS doctor may decide to keep you under observation (heart monitoring) at the time you take the next dose. If you have forgotten to take your treatment for **less than two weeks**, you can take the next dose as planned.

Please note: You should never take a double dose to make up for a forgotten dose.
