

Paediatric Hand Therapy Service

This leaflet explains about the Paediatric Hand Therapy Service. If you have any further questions, please speak to the therapist, doctor or nurse caring for your child.

Who are we?

The team is made up of both Occupational Therapists and Physiotherapists. We are specially trained to work with hand conditions and injuries.

What is hand therapy?

Hand therapy is a sub-specialty of Occupational Therapy and Physiotherapy. The hand therapy treatment will be designed specifically for you or your child. It may include:

- Advice and education
- Splints (specially designed supports)
- Exercises
- Scar care
- Psychological (emotional support)
- Help with returning to school and sports.

We will regularly assess progress. Our aim is to enable you or your child to return to your previous level of function.

Who do we treat?

We only accept referrals from the Plastics Consultants here at St George's Hospital.

Can I or my child attend appointments alone?

All children should be accompanied by a responsible adult for their appointments. Ideally this should be a parent or carer.

What if I or my child is late or cannot attend?

If you are unable to attend, please give at least 24 hours' notice by calling the number provided. This allows us to offer your appointment to another patient.

If you **attend late** for your appointment, we cannot guarantee that you will be seen, and you may have to arrange an alternative appointment.

If you **do not attend** an appointment and do not contact us, you will be discharged from the hand therapy service, as per the St George's University Hospitals NHS Foundation Trust appointments policy. You will need a new referral from the consultant for further treatment.

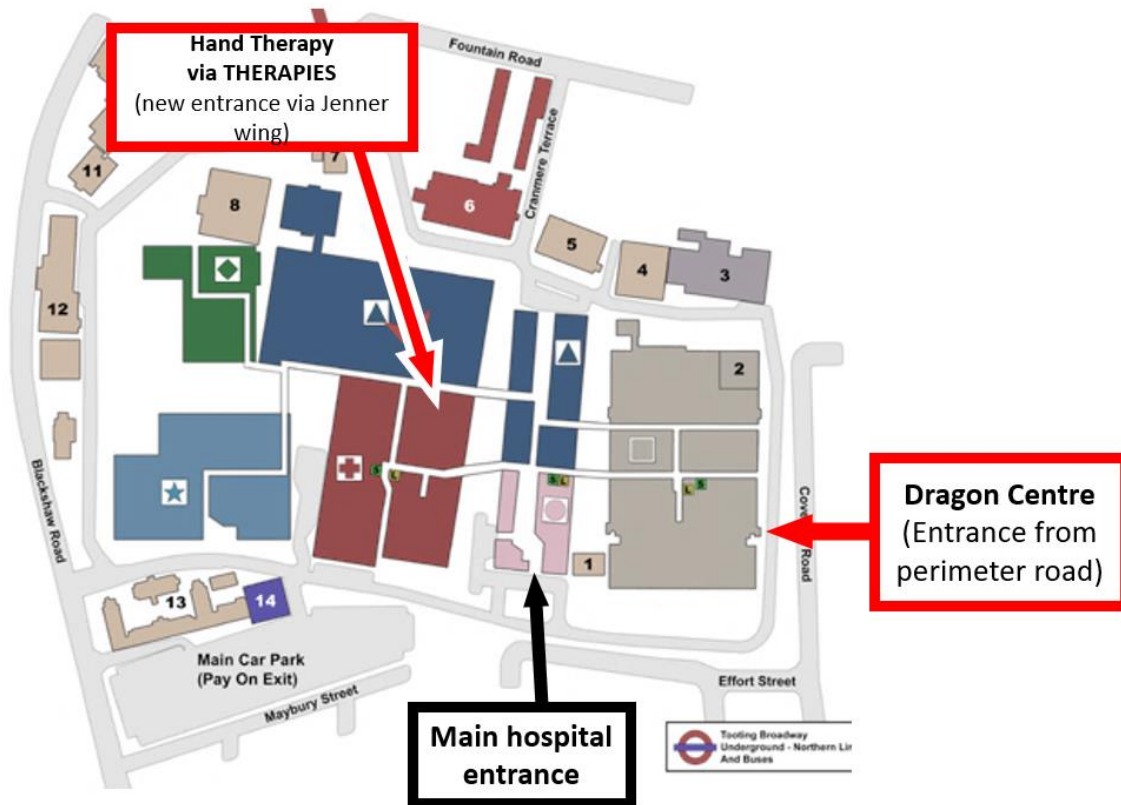

What if I or my child needs an interpreter?

If you need an interpreter, please advise a member of the team as soon as possible.

Where do I and my child need to go for appointments?

Your appointment will normally be held in the Dragon Children's Centre. There is a fully accessible entrance to this area at the Lanesborough Wing end of the hospital.

Sometimes children may be seen in the main Therapies department in Jenner Wing. You will always be informed if the appointment will be in this department. Please see the map for details of where these areas are located.

Where do I go for my child's next appointment?

Most follow-up appointments will be held in the Dragon Children's Centre, ground floor, Lanesborough Wing. Your therapist will advise you where to attend next time.

What do I need to bring with me?

- Your appointment card
- Any splints which you or your child may have.

How long will appointments be?

Please allow up to 60 minutes for your first appointment and 30 minutes for follow-up appointments.

Will I or my child be seen by students?

St George's University Hospitals NHS Foundation Trust is a teaching hospital, so we regularly train staff and students. You or your child may be treated by a student, under the supervision of a qualified member of staff. Please say if you do not want students present during your appointment. This will not affect your care in any way.

Will I or my child be involved in research?

As a teaching hospital, we carry out research which can help us find out more about conditions and treatments. We may collect information about you (that will not identify you) for the purposes of research. We will always discuss this with you first and ask you to sign a consent form. If you are asked to take part in research and do not want to please let your therapist know. This will not affect your treatment in any way.

Additional services

Patient Advice and Liaison Service (PALS)

PALS can offer you advice and information when you have comments or concerns about our services or care. You can contact the PALS team on the advisory telephone line Monday, Tuesday, Thursday and Friday from 2pm to 5pm.

A Walk-in service is available:

Monday, Tuesday and Thursday between 10am and 4pm

Friday between 10am and 2pm.

Please contact PALS in advance to check if there are any changes to opening times.

The Walk-in and Advisory telephone services are closed on Wednesdays.

PALS is based within the hospital in the ground floor main corridor between Grosvenor and Lanesborough Wing.

Tel: 020 8725 2453 **Email:** pals@stgeorges.nhs.uk

NHS Choices

NHS Choices provides online information and guidance on all aspects of health and healthcare, to help you make decisions about your health.

Web: www.nhs.uk

NHS 111

You can call 111 when you need medical help fast but it's not a 999 emergency. NHS 111 is available 24 hours a day, 365 days a year. Calls are free from landlines and mobile phones.

Tel: 111

AccessAble

You can download accessibility guides for all our services by searching 'St George's Hospital' on the AccessAble website (www.accessable.co.uk). The guides are designed to ensure everyone – including those with accessibility needs – can access our hospital and community sites with confidence.
