

# Information about your Referral

## **South West London Breast Screening Service The Rose Centre**

Thank you for attending the breast assessment clinic.

### What to expect at your first outpatient appointment

Your x-rays, scans and biopsy results will have been discussed in a multidisciplinary team meeting prior to your appointment, in order to discuss the most appropriate plan for you.

The needle biopsy result and proposed surgery will be discussed with you at your appointment.

Page 1 of 3

You will get information about your admission date and your likely length of stay in hospital. Most women have day case surgery or only stay in hospital for one night.

You may be given advice about recovery time after the operation and when to return to work.

You may be sent for some routine tests, for example a blood test. You will also be seen in a pre-assessment clinic prior to your surgery.

Please feel free to bring a friend or relative with you if you wish.

If you have not received an appointment within one week, please contact the breast care nurse you met today on: 020 8725 2726.
