Gastroscopy / OGD Discharge Information

After Your Procedure: Immediate Advice

☐ Throat Spray Used

- A local anaesthetic spray has been used to numb your throat during the procedure. This will normally wear off in 30 minutes but may take up to 2 hours.
- Therefore, **Do Not Eat or Drink** for 30 minutes after the procedure.
- You can take a sip of cool water at _____. If you can swallow normally, you may commence a normal diet. If you cough or have difficulty in swallowing, please do not drink or eat for another 30 minutes. Repeat this process until you can swallow normally.
- If you had **THROAT SPRAY ONLY**, you may leave the unit unaccompanied. ☐

☐ Entonox (Gas and Air) Only

- Following a 30-minute recovery period, you may leave the unit unaccompanied.

☐ Sedation Received

- You must have a responsible adult to escort you home and stay with you for at least **12 hours.**
- Sedation may remain in your body for up to **24 hours.**
- Your coordination and concentration may be impaired, and you may feel lightheaded or drowsy.

Activity Restrictions for 24 hours

- Do not drive or ride a bicycle
- Do not operate machinery
- Avoid activities requiring full concentration
- Avoid important decisions / signing legal documents
- Avoid online shopping or social media use

☐ Fentanyl Only (No Midazolam)

- If you have an escort, they must stay with you for at least 2 hours after leaving the unit.
- If you do not have an escort, you will remain in the Endoscopy Unit for 3 hours before discharge.
- You are advised to travel home by taxi, if unescorted.
- After Fentanyl your judgment and reaction times may still be affected.
- We recommend you avoid driving and riding a bicycle for 24 hours.

Eating and Drinking

- As soon as the effect from the numbing throat spray has worn off, you can eat and drink as normal, unless otherwise advised.
- If you feel bloated or nauseous, you may wish to start with a light diet.

When Can I Return to My Normal Activities

- You can usually resume normal activity today, unless you received sedation or Fentanyl, in which case it should be resumed tomorrow.

If You Have Had Biopsies Taken Yes ☐ No ☐

- Routine results are usually available within up to 6 weeks.
- Results will be sent to your GP and referring clinician. Please do not contact the endoscopy unit for results.
- Urgent results are usually available within 2 weeks and an appointment will be arranged by the specialist team in charge of your care to discuss these results.

What To Expect After Your Procedure

Common Side Effects

- **Sore throat**
  - It's normal to experience a mild sore throat for up to 48 hours following the procedure, simple lozenges will help.
- **Bloating and mild abdominal discomfort**
  - You may feel bloated or have mild abdominal (tummy) discomfort from the remaining air in your stomach, this is normal and should improve quickly. Drinking peppermint tea can help pass the wind. You may take simple pain-relieving tablets as needed.

When To Seek Urgent Medical Attention

Go to your nearest Emergency Department or call 999 immediately if, within the first 24 hours after your procedure, you develop:

- Fever (>38°C) / Chills / Rigors
- Severe or worsening abdominal, neck or chest pain
- Persistent nausea or vomiting
- Vomiting blood or 'coffee ground' material
- Black, sticky tar-like poo
- Difficulty breathing / Shortness of breath
- Fainting / Collapse

Do not drive yourself to hospital.
Take your endoscopy report with you if possible.
